### **1.1 Management report**

#### General

Management hereby presents to the shareholder the annual report of Cable and Wireless International Finance B.V. (the "Company") for the financial period ended December 31, 2016.

The Company was incorporated with limited liability on September 28, 1989 under the laws of the Netherlands. The objective of the Company is to act as a finance company. The group structure is further detailed in note 2.4 of the financial statements.

#### Activities and results

During the year under review, the Company continued its activities with respect to the 2019 Bonds (as defined and described in note 2.5 [5] to the financial statements). These 2019 Bonds are listed on the London, Hong Kong and Frankfurt stock exchanges and are due for redemption on June 1, 2019. The Bonds are guaranteed by the shareholder of the Company, Cable & Wireless Limited. In turn, Cable & Wireless Limited is a wholly owned subsidiary of Cable & Wireless Communications Limited (formerly Cable & Wireless Communications Plc. until May 20, 2016) (hereinafter "CWC"), one of the world's leading telecommunications companies.

On May 16, 2016, CWC was acquired by a subsidiary of Liberty Global plc.

During the year under review, the Company realized a net result of USD 110,005 (2015/2016: USD 239,908) and the equity of the Company as at December 31, 2016 amounts to EUR 10,933,536 (March 31, 2016: EUR 10,823,531). The equity ratio increased from 3.69% to 3.96%. The activities of the Company developed in line with expectations.

During the financial period under review, the Company changed the book year end from March 31, 2017 to December 31, 2016. This financial period relates to a shortened year from April 1, 2016 through December 31, 2016.

#### Changes in Management

On February 15, 2017 Ms. B.H.Y. Bradberry resigned as director of the Company.

#### Financial risks

The risks the Company runs in relation to financial instruments are limited to interest rate risk and credit risk. The interest rate risk is addressed and mitigated by a fixed positive margin between rates on borrowings and lendings. The credit risk is limited due to the guarantee given by the ultimate holding company with respect to the bonds receivable and the loans payable.

Financial risks arising from the ordinary business activities of the Company consist mainly of default and liquidity risks if Cable & Wireless Limited were not to meet its obligations in respect of the GBP Shareholder Loan (as defined and described in note 2.5 [1] to the financial statements) and the 2019 Bonds. At December 31, 2016, management has no reason to believe that Cable & Wireless Limited will not be able to meet its obligations in the foreseeable future.

The Company has agreements in Pound Sterling ("GBP") for the GBP Shareholder Loan and the 2019 Bonds, each in the principal amount of GBP 200,000,000. The GBP Shareholder Loan carries a fixed interest rate at 8.75% per annum, whilst the 2019 Bonds carry a fixed interest rate at 8.625% per annum. Accordingly, the Company does not consider the foreign currency and interest risks to be significant.

The Company does not enter into derivative financial instruments to protect itself against changes in exchange rates or interest rates. Risks in connection with anticipated significant classes of transactions are not hedged.

It is expected that the Brexit will not have a significant impact on the financial position of the Company.

For futher elaboration on the Company's risks, please refer to note 2.4 of the financial statements.

#### Personnel related information

The Company employed no personnel during the financial period under review (2015/2016: nil).

#### **Research and development costs**

The Company does not perform any research and development.

#### Future outlook

No material change in activities is contemplated for the coming year. It is expected that the result will be in line with that of the reporting period. Furthermore management has no current plans which would have a significant influence on expectations concerning future activities, investments, financing, staffing and profitability.

#### Subsequent events

On March 25, 2017, Cable & Wireless Limited was entitled to receive interest of GBP 4,597,125 associated with the 2019 Bonds. Cable & Wireless Limited has irrevocable renounced its right to receive these interest payments.

On March 25, 2017, the Company was entitled to receive interest of GBP 4,597,125 from Cable and Wireless Limited on the GBP Shareholder Loan. The Company waived its right to receive these interest payments.

Further, management is not aware of any significant events that have occurred since the balance sheet date that were not included in the annual report.

### 2.4 Notes to the financial statements

#### General

Cable and Wireless International Finance B.V. (the "Company"), a company with limited liability, was incorporated under the laws of the Netherlands on September 28, 1989. The statutory seat of the Company is in Amsterdam, the Netherlands, the registered office address of the Company is at Prins Bernhardplein 200, Amsterdam, the Netherlands. The objectives of the Company are to act as a finance company.

The Company qualifies as a public interest entity (Organisatie van Openbaar Belang) within the meaning of Article 1, par 1, sub I "Wet toezicht accountantsorganisaties" and following the Royal Decree of July 26, 2008, concerning the implementation of Article 41 of EC directive 2006/43 the Company is required to have an Audit Committee. The Company uses the exception granted in Article 3 of this Royal Decree, which stipulates that the Royal Decree is not applicable for consolidated companies in cases where the parent company (Liberty Global plc, London, United Kingdom) (hereinafter "Liberty Global") has instituted an Audit Committee, which is the case as at December 31, 2016. In previous years this was Cable & Wireless Communications Limited, London, United Kingdom (hereinafter "CWC"), but CWC was acquired by Liberty Global as per May 16, 2016.

The Company is registered in the Chamber of Commerce register under number 33.214.341.

#### **Group structure**

The Company is a subsidiary of Cable & Wireless Limited (the "Parent Company"), London, United Kingdom, which owns 100% of the Company's shares. In turn, Cable & Wireless Limited is a wholly owned subsidiary of CWC. The Company's figures are taken up in the consolidated accounts of CWC. The consolidated accounts of CWC can be obtained from their website: www.cwc.com. Effective May 16, 2016, the Company is ultimately owned by Liberty Global and the consolidated accounts of Liberty Global can be obtained from www.libertyglobal.com.

#### **Related parties**

The Company is engaged in the financing of its shareholder by issuing unsecured bonds secured by its shareholder. The conditions of these loans are all at arm's length. Please refer to the Notes to the balance sheet items for further details.

#### Solvency

The Company acts as a group financing company. As such, the Company is economically and organizationally linked to CWC. Therefore the solvency of the parent company and that of the CWC group should be included when assessing the Company's solvency.

#### Accounting policies

The principal accounting policies adopted in the preparation of these financial statements are set out below:

#### Functional and presentation currency

The functional currency of the Parent Company, CWC, Liberty Global and the majority of trading and financing companies of the CWC group, of which the Company is a member, is the United States Dollar ("USD"). In respect of the Company, the Directors consider the USD to be the functional currency reflecting the economic effects of the underlying transactions, events and conditions for the Company. The Company therefore presents its financial statements in USD.

The financial statements are prepared in accordance with accounting principles generally accepted in the Netherlands and comply with the financial reporting requirements included in Part 9 of Book 2 of the Dutch Civil Code. The financial statements are prepared under the historical cost convention and presented in dollars (USD). Assets and liabilities are stated at nominal value, unless otherwise stated. If deemed necessary, a provision is deducted from the nominal amount of accounts receivable.

The changes in Title 9 BW 2 with effects as from 1 January 2016 only impacts disclosure requirements and do not have any impact on equity and profit for the current and previous year.

#### Payables and receivables

Payables are stated at nominal value. Short term payables and receivables are reclassified to long term if it is expected that the amounts will not be repaid or recovered within 12 months after the balance sheet date.

The receivables due from shareholder and other receivables are initially valued at fair value, and subsequently valued at amortised cost, which is similar to the nominal value, after deduction of any provisions, if necessary.

#### **Revenue recognition**

Interest income and expense are recognized in the income statement based on accrued amounts. Operating expenses are accounted for in the period in which they are incurred. Losses are accounted for in the period in which they are identified.

#### Going concern

These financial statements have been prepared on a going concern basis, which basis for valuation and determination of results assumes that the company will be able to realize its assets and discharge its liabilities in the normal course of business.

The equity of the Company amounts to USD 10,933,536 million positive. Management has assessed this situation and has a reasonable expectation that the Company has adequate resources to continue in operational existence in the forseeable future.

#### Comparison previous year

This financial period relates to a shortened year from April 1, 2016 through December 31, 2016 due to the book year end change made in December 2016. The other accounting principles remained unchanged compared to previous year.

#### Impairment of fixed assets

At each balance sheet date is judged whether there is any indication that an asset may be subject to impairment. If any such indication exists, the recoverable amount of the asset is determined. If it is not possible to determine the recoverable amount for an individual asset, the recoverable amount of the transaction to which the asset belongs. An impairment is recognized if the carrying amount of an asset is greater than its recoverable amount, the recoverable amount is the higher of net realizable value and value in use.

#### Estimates

The preparation of the financial statements in accordance with Dutch GAAP requires management to make judgements, estimates and assumptions that affect the application of policies and reported amounts of assets, liabilities, income and expenses. These estimates and associated assumptions are based on historical experience and various other factors that are considered to be reasonable under the circumstances. They form the basis of judgements about the carrying values of assets and liabilities that are not readily available from the other sources. Actual results may differ from these estimates.

#### Currency

Assets and liabilities denominated in foreign currencies are translated at year-end exchange rates. Foreign currency transactions are accounted for at the exchange rates prevailing at the date of the transactions. Gains and losses resulting from the settlement of such transactions and from the translation of monetary assets and liabilities denominated in foreign currencies, are recognized in the statement of income. Non-monetary balance sheet items, which are valued at cost and resulting from transactions in foreign currencies, are translated at the rate prevailing on the date of the transaction. These balance sheet items are valued at cost.

#### Bonds

The 2019 Bonds are recognised initially at fair value, net of directly attributable transaction costs, and are subsequently measured at amortised cost. The 2019 Bonds are amortised to the settlement amount using the effective interest method.

Current debt represents amounts that are due within 12 months. Non-current debt represents amounts that are expected to be settled after more than 12 months from the reporting date.

#### Financial risk management

The Company has exposure to the following risks from its financial instruments:

- currency risk
- credit risk
- liquidity risk
- interest risk

#### Currency risk

The Company is exposed to movements in exchange rates in relation to non-USD currency denominated assets, liabilities, income and expenses. Where appropriate, the Company manages its exposure to movements in exchange rates on a net basis. Affiliates of the Company use forward foreign exchange contracts and other derivative and financial instruments to reduce the exposures created when currencies do not naturally offset in the short term. Affiliates of the Company will undertake hedges to minimise the exposure to individual transactions that create significant foreign exchange exposures for the Company where appropriate.

#### Credit risk

Cash deposits and similar financial instruments give rise to credit risk, which represents the loss that would be recognised if a counterparty failed to perform as contracted. The carrying amount of the financial assets of the Company represents the maximum credit exposure of the Company. Management seeks to reduce this credit risk by ensuring the counterparties to all but a small proportion of the Company's financial instruments are core relationship banks. These banks are awarded a maximum credit limit based on ratings by Standard & Poor's and Moody's, the level of the banks' credit default swap (CDS) and its associated level of tier one capital. The credit limit assigned to counterparties is monitored on a continuing basis. The credit risk on the loan receivable from the Company's shareholder is considered low due to the shareholder's financial position.

#### Liquidity risk

The Company manages its own liquidity to meet its financial obligations of servicing and repaying external debt. Liquidity forecasts are produced on a regular basis to ensure the utilisation of current facilities is optimised and that medium-term liquidity is maintained and for the purpose of identifying long-term strategic funding requirements. The Directors also regularly assess the balance of capital and debt funding of the Company.

#### Interest risk

The Company is exposed to movements in interest rates on its surplus cash balances and variable rate loans although there is a degree of offset between the two. Accordingly, the Company does not consider interest risk to be significant. The Company may seek to reduce volatility by fixing a proportion of this interest rate exposure whilst taking account of prevailing market conditions as appropriate.

The Company does not use derivative financial instruments.

Financial risks arising from the ordinary business activities of the Company consist mainly of default and liquidity risks if Cable & Wireless Limited were not to meet its obligations in respect of the GBP Shareholder Loan and the 2019 Bonds, as further described in note 2.5 [1] and [5], respectively. At 31 December 2016, management has no reason to believe that Cable & Wireless Limited will not be able to meet its obligations in the foreseeable future.

#### **Financial fixed assets**

Financial fixed assets are valued at nominal value.

#### Receivables

Upon initial recognition the receivables are recorded at the fair value and subsequently valued at the amortized cost. The fair value and amortized cost equal the face value. Provisions deemed necessary for doubtful accounts are deducted. These provisions are determined by individual assessment of the receivables.

#### Cash and cash equivalents

Cash at banks and in hand represent cash in hand, bank balances and deposits with terms of less than twelve months. Overdrafts at banks are recognised as part of debts to lending institutions under current liabilities. Cash at banks and in hand is valued at nominal value.

#### Shareholders' equity

#### Share capital

Ordinary shares are classified as share capital.

#### Share premium

The share premium concerns the part of issued and paid-up capital that exceeds the nominal value of issued shares. possible bad debt losses are deducted. These provisions are determined by individual assessment of the receivables.

#### Other reserves

Gains and losses resulting from the translation of the issued and paid-up capital from Euro ("EUR") into USD is recorded in other reserves.

#### Long-term liabilities

Long-term liabilities concern loans with a term of longer than one year. The part of the loans that is repaid in the coming financial year, has been included under the short-term liabilities. Upon initial recognition, loans and liabilities recorded are stated at fair value and then subsequently valued at amortized cost which is similar to nominal value.

#### **Current liabilities**

Current liabilities concern debts with a term of less than one year. Upon initial recognition, current liabilities are stated at fair value and then subsequently valued at the amortized cost which is similar to nominal value.

#### Income recognition

Interest income and expense are recognized in the income statement based on accrual accounting. Dividend income is recognized in the income statement of the year in which the Company's legal right to receive payment is established. Operating expenses are accounted for in the period in which these are incurred. Losses are accounted for in the year in which they are identified.

#### Income taxes

Corporate income tax is calculated at the applicable rate on the result for the financial year, taking into account permanent differences between profit calculated according to the financial statements and profit calculated for taxation purposes. Temporary differences between the reporting for tax purposes and the financial statements are recognized as deferred taxes based on the current tax rate. Deferred tax assets and liabilities are netted. Net deferred tax assets will be included in the balance sheet if actual realization is assumed probable by the Company's management.

Corporate income tax expense comprises current and deferred tax. Current tax is the expected tax payable on the taxable income for the year and any adjustment to tax payable in respect of previous years. Corporate income tax expense is recognized in the profit and loss account except to the extent that it relates to items recognized directly in equity.

#### Principles for preparation of the cash flow statement

The cash flow statement is prepared according to the indirect method. The funds in the cash flow statement consist of cash and cash equivalents. Cash equivalents can be considered as highly liquid investments. Cash flow in foreign currencies are translated at the exchange rates prevailing at the date of transactions.
